About 40 years ago the aluminum recycling industry began. Today, the aluminum can is America's most recyclable package. Over 120,000 aluminum cans are recycled every minute in the United States alone!

Did you ever wonder what *daily* impact we humans have on our planet?

Well, in a typical day humans will add over ***15*** million tons of carbon to the atmosphere, destroy more than ***115*** square miles of tropical rainforest, create over ***72*** square miles of desert, eliminate between ***40*** to ***100*** species, erode over ***71*** million tons of topsoil, add ***2,700*** tons of CFCs to the stratosphere, and increase the population by at least ***263,000*** so that the next day our impact is even greater.

Your Success is Our Success

In the depth of winter I finally learned that there was in me an invincible summer. –Albert Camus

The Study Rooms

I decided to create new signs for the study rooms. Nothing fancy, just printed out the study room number and laminated it. In the process of hanging up the new signs though, I noticed that the rooms were looking rather grungy (and that's putting it mildly). And while a few had some artwork hanging, most did not. The rooms with artwork seemed much cheerier.

So with the help of a fellow colleague, Maggie Adams, we scrubbed the rooms & doors. We also added artwork to the rooms that were bare.

Now the study rooms are being painted! The cleaning helped freshen things up but to make a significant difference they really needed to be painted (thank you Robert!).

Why do I mention all of this? Oh, it isn't to be thanked if that's what you're thinking. I take pride in this library & I want you to as well, keeping it neat & clean is a matter of pride to me. I also want you to have a pleasant atmosphere in which to study. I tell you this primarily because I want you to be aware that the study rooms have been cleaned & painted so you will exercise a modicum of care while you're in there. It's part of that whole pride thing you know.

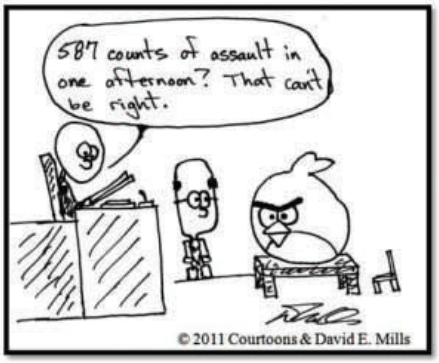
Legal Brain Teasers*

What legal saying is shown below:

No Man
THE LAW

Riddle:
"Two men were tried for murder. The jury found one man guilty and the other innocent. The judge turned to the guilty man and said, "Even though your guilt has been established, the law compels me to set you free." How could such a bizarre judgment occur?" (from the game MindTrap)

"Westlaw Headnote of the Day: Don't expect homeowner's insurance to cover you if you get sued for biting off someone's nose. ow.ly/gSQsZ" (Westlaw tweet, 01/17/13)



(From: http://www.apostilleny.com/pictures/legal-jokes-6EdPd.html)

***Answers:**
No man is above the law.
The two defendants were Siamese twins. They guilty man was set free, because to punish him would mean punishing an innocent man.
