CAMPUS SAFETY

The Campus Safety Office is located in the lobby of the Library Building. The telephone number is 717-541-3948 or email Sgt. Jumper at lhjumper@widener.edu. We are on duty to serve you from 8:00 a.m. until midnight and on the weekends when the Library is open.

Safety is a shared responsibility

We need your assistance and encourage all of you to report anything that you may consider suspicious.

In the twenty-first century, the Internet is arguably the most dominant and pervasive medium by which the global society connects; exchanges information; and expresses its views, thoughts, and opinions—often instantaneously. An entire generation of people, enterprises, and even governments are now socialized to live their lives and conduct business in a virtual reality by participating in Internet-based social media networks, blogging, and the like. We post photos and information to Facebook® and MySpace®, we tweet, and we blog about every topic known to humankind. From the famous to the infamous to the unknown, virtually everyone who has access has an opportunity to participate on the World Wide Web. Sometimes this participation takes the form of news reporting, sometimes it's personal, sometimes it's private, and sometimes it's defamatory or otherwise violative of a range of existing local, state and federal civil and criminal laws.

Thus, Internet expression has spurred an entire new genre of communication and of consumer expectations about access to, and dissemination of, information and entertainment in ways that the legal world has only begun to navigate and understand. While many traditional legal principles may apply to Internet expression, new media present innumerable challenges and threaten to force changes in the legal protections and individual constitutional freedoms now in force in the United States and beyond.

The Widener Law Journal has assembled a dynamic and diverse group of preeminent legal scholars to evaluate and discuss the many engaging, perplexing, and unanswered legal and ethical questions presented by Internet expression. The Symposium is divided into two sessions. The morning session will focus on the issues of constitutional law and criminal procedure that arise with Internet expression, including whether the Internet has increased concerns about speakers' invasions of other persons' rights and what regulations are necessary to protect the privacy rights of the speakers themselves. The afternoon session will focus on the intersection of Internet expression and property law, including issues of ownership, protectable interests, and fair use in the realm of intellectual property law for interests created with the mind.

The distinguished academics and practitioners taking part in this cutting-edge Symposium have already shaped the law's response to the advances of the digital age. Their remarks—as well as the written scholarship that will appear in the *Widener Law Journal*'s Symposium issue—will both inform us and further aid the law in adapting to the new and challenging issues presented by Internet expression.

MOOT COURT HONOR SOCIETY

20th Annual

Harrisburg/Delaware Internal Competition

The final round of the competition between Harrisburg and Delaware will be held on **February 25**, **2010**, at the Pennsylvania Supreme Court. All participants must be available for this date pending their performance and advancement in the competition.

Any questions regarding the competition can be forwarded to Fawn Smith – Fawn.E.Smith@gmail.com or Fesmith@mail.widener.edu

Widener Journal of Law Economics & Race

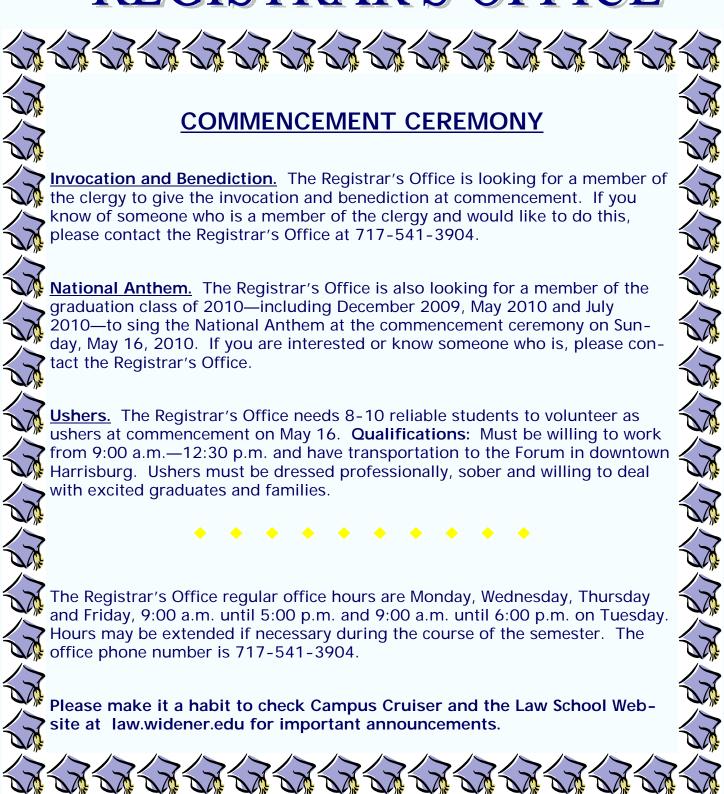

The Valley Club of Huntingdon Valley is facing a widely debated discrimination suit. Recently, the Pennsylvania Human Rights Commission issued a <u>Probable Cause Finding</u> for discrimination pertaining to the Valley Club's denial of service to certain African American children participating in the Creative Steps day care program. Special Project Volume I highlights this controversy.

WJLER issued a national call for idea papers on the lawsuits and the events that led to it. Go to www.wjler.org to read the papers. We invite and encourage responses to these papers.

You can fool some of the people all of the time, and all of the people some of the time, but you cannot fool all of the people all the time—Abraham Lincoln

WIDENER UNIVERSITY SCHOOL OF LAW

2010 Summer International Law Institutes

Widener University School of Law's summer institutes in Europe provide law students with the unique opportunity to build their own "Summer International Law Experience". Widener's programs in Lausanne, Switzerland and Venice, Italy have been designed with the student in mind. Each program consists of two 2-week segments and students have numerous options when enrolling in courses. Students can select from the following options:

- Students may select any one of the two week segments and spend 2 weeks in Europe studying international law and then return home for the rest of the summer.
- Students may select one two-week segment in Lausanne and one 2-week segment in Venice or take 2 segments in one location for a month long summer experience.
- Students may select the first two-week segment in Lausanne, spend the next 2 weeks traveling through Europe, and then select the last 2-week segment in Venice for a complete summer European experience.

The myriad of options available in our European Summer Law programs mean almost every student can build a personal program to meet the individual's educational, financial, and personal goals.

The options are many-- Europe is waiting!!

WIDENER SCHOOL OF LAW RECYCLING PROGRAM IS SINGLE-STREAM

(recyclables can be co-mingled in the blue containers on campus)

RECYCLING is the process of taking a product at the end of its useful life and using all or part of it to make another product. Recycling reduces waste sent to landfills and making new products out of recycled ones reduces the amount of energy needed in production.

But it is not all about recycling. One of the easiest ways to be good to the environment is to **REDUCE**, or cut back, in key areas of your life. Three of the most important resources you can reduce are: energy, water and solid waste.

Please remember to use the Widener Law blue recycling containers to recycle here on campus. It is our responsibility to preserve and protect our natural resources for future generations.
